

BC 93/018 SILICONE EMUSION

Description

Basildon Chemicals BC 93/018 Silicone emulsion is designed for use in the manufacture of equine products.

Product Features

1. It is a liquid and easily formulated.
2. Gives good gloss on hair.
3. Imparts some durability.
4. Aids de-tangling of manes and tails.

Typical Properties

These values are not intended for use in preparing specifications (see table).

Method of Use

BC 93/018 Silicone Emulsion can be used as the basis for horse care products such as mane and tail shine and general horse grooming products. The emulsion is supplied as a concentrate and can be diluted for use in the final product. Emulsion levels of 5-10% in the final formulation can be used, depending upon the properties required.

Toxicity and Handling

BC 93/018 Silicone emulsion is basically non-hazardous with a very low order of toxicity, although prolonged contact with the skin or contact with the eyes may cause some irritation. See our material safety data sheet for more information.

Storage and Shelf Life

The product should be stored below 32°C and not allowed to freeze. Shelf life of the unopened container is 12 months from date of manufacture. If you wish to use the product after this time please contact us for approval.
