

# BC 98/073 Phenyl Methyl Polysiloxane

## Description

Basildon Chemicals BC 98/073 is a phenyl substituted silicone fluid for use in car care formulations.

If the material is kept beyond the recommended shelf life, it is not necessarily unusable, but a quality control should be performed on the properties relevant to the application.

## Product Features

1. Excellent compatibility with organic material.
2. Low residue.
3. High refractive index.

## Toxicity and Handling

See our health and safety sheet for more information.

## Applications

BC 98/073 imprints a high degree of gloss to products such as tyre enhancers, polishes and leather treatments. BC 98/073 has a higher refractive index than standard polydimethylsiloxanes.

## Technical Service

Our technical and sales staff have considerable experience of the use of silicone products in a very wide variety of industries and the benefit of this experience is freely available to all our customers.

## Storage & Shelf Life

BC 98/073 Phenyl Trimethicone has a shelf life of at least 12 months, if stored in tightly closed original containers at temperatures below 32°C.

## Basildon Chemical Company Limited
