

Guide Formulation

POL10

Interior Vinyl Polish

Raw Material	% Weight
BC 85/76 ¹	30
Preservative ²	as required
Water	up to 100%

Supplier

- ¹ Basildon Chemicals
- ² E.G. Kathlon LXE (Rohm & Haas)

Method

- Add perfume and colour (if required) to the water.
- Disperse the preservative in the water.
- Add the active ingredients to the water phase by slow stirring.

Concentration

The above formulation will give a product with approximately 10% active ingredients. For economy the amount of active ingredient can be reduced as low as 5%.

Basildon Chemical Company Limited ("the Company") has supplied the above formulation to you only as a guide. It is important to note that the formulation provided above is not a commercial formulation and has not been tested by the Company. The formulation must be evaluated and modified by you for your own requirements before use and the Company hereby excludes all and any liability to you or any third party user for any losses or damages incurred as a result of use of the formulation as provided above, to the fullest extent permitted by law. Under no circumstances shall the Company be liable to you or any third party user for consequential losses such as loss of earnings, loss of profits, loss of reputation and the like.
